Alban CAT has been in business since 1927 representing Caterpillar products in the mid-Atlantic region. Our goal remains the same, to provide the best possible sales, parts and service capability. The technological leadership position of Caterpillar is complemented by the experience and years in trenches of the Alban technicians who have supported the growth of the company. Our technician positions include shop, preventive maintenance and field service. Come to one of our career fairs to learn more about Alban CAT and your opportunity to join a winning team.

Alban CAT Power Systems, a division of Alban CAT since 1972, is a power specialist offering a range of diesel and spark-ignited engines in both standby and prime generator configurations. We also provide uninterruptible power supply (UPS) systems for a wide range of applications. We market to industries including commercial, manufacturing, healthcare, entertainment and special events. We provide turn-key solutions which involve Engineering and Project Management of Electric Power Generation Solutions.

At Alban we offer employee training both in house and through Caterpillar courses. We take pride in our experienced and well trained shop and field technicians.

Alban CAT offers a comprehensive benefits plan designed to meet the needs of all our employees:
