Item 7 Number/Type of Workers

Workers must possess documentation required to enable employer to comply with the employment verification requirements of IRCA. Accurate completion of Form I-9 will be required of each worker within (3) days of employment pursuant to U.S. law. All workers hired under this job order must demonstrate eligibility to work legally in the U.S. Refer to the back of Form I-9 for documents acceptable for purposes of establishing employment eligibility. After hiring, employer may verify legitimacy of social security numbers through Employment Verification System (EVS) for workers who have not been employed by him in previous years.

Workers should bring with them documents verifying their legal right to work in the U.S. at the time of employment. Valid eligibility documents will be necessary to complete payroll tax withholding and I-9 forms.

Employer’s agent agrees to interview all US workers referred by the State Employment Services, local or by supply states who have been screened by such employment services for:

1. Availability for entire season
2. Have transportation to job site
3. Have been fully apprised by the local employment office of the terms, conditions and nature of employment
4. Are legally entitled to work in the U.S.

Actual hiring commitment is left to the discretion of the employer when applicant presents himself for employment.

Item 8. Work Week

The work day is from 7:00 AM until 3:00 PM Monday through Friday and 7:00 AM until 12 noon on Saturday, with an unpaid lunch break (7 hours/day and 5/day on Saturday). The worker may be requested, but not required, to work as much as 12 hours per day and/or on the Sabbath, depending on weather and other conditions. Extreme heat, cold or drought may affect working hours. Employer will offer 40 hours/week, weather and crop conditions permitting. Worker will report to work at designated time and place as directed by employer each day.

Item 10. Job Specifications

Work in fruit packing, picking and winter orchard maintenance activities in vertically-integrated farming operation. Pack fresh market apples in its packing facility, pick or harvest apples and prune fruit trees in its orchards.

Apple packing:

Perform tasks associated with packing apples for fresh market consumption. Inspect apples, remove segregated apples from sorting stations, hand pack in boxes or bags, operate equipment essential to packing apples, including baggers and forklifts. Stack packed apples, load/unload as needed. May operate forklift on occasional basis as necessary. Clean facility work areas at end of shift.

Orchard (pruning) tasks:

Workers may also be required to work in orchard performing both manual and machine tasks associated with pruning and winter fruit tree cultivation. Workers must be able to perform all activities with accuracy and efficiency.

Careful pruning requires knowledge of what to prune, how much to prune and fruit trees' growth habits. The primary reason for pruning fruit trees is to improve fruit quality and thus increase crop marketability and value. Fruit trees are typically pruned in late winter or very early spring before new growth starts. Apples require regular maintenance and pest management to produce quality fruit.

Work is to be done in the orchard for long periods of time. Workers are expected to possess or acquire pruning skills in order to be able to identify and remove stubs or broken branches, downward-growing branches, branches which rub against each other, shaded interior branches, dead wood and shoots/suckers with hand pruning saws and clippers, mechanized clippers and pole pruners. Occasionally workers may be required to use chain saws and other mechanized equipment in pruning activities. Additional qualifications include the ability to repetitively crouch, bend and reach through the entire workday; the ability to repetitively lift and carry items weighing up to 75 pounds; and the ability to work in extremes of heat and cold and in inclement weather.

Orchard (picking/harvest) tasks:

Jobs offered are work in an orchard handling both manual and machine tasks associated with commodity production and harvest (apple picking) activities. Workers must be able to perform manual as well as mechanized activities with accuracy and efficiency.

Fruit will be picked using ladders and picking buckets. Ladders range from 14 ft. to 20 ft. in length and weigh from 35 to 50 lbs. each. Buckets, full of apples, weigh up to 50 lbs. Pickers are required to snap apples off of tree using their thumb and palm of hand to avoid bruising. Each apple must be carefully placed in bucket to avoid bruising. When bucket is full, picker descends ladder carefully to avoid 'banging' bucket against ladder and empties picking bucket carefully into apple bin. Bucket must be lowered down into the bin so apples don't drop or roll excessively. Bin must be filled in a level manner and not by always emptying into one or two corners and letting apples roll down a pyramid. Company supervisors will give demonstrations of how the apples must be picked prior to season's picking begins. Overfilling or under filling bins will not be permitted.

The employer has established a picking bruise standard to which all pickers must adhere. It is as follows: A roving inspector paid for by the employer selects at random samples consisting of 25 apples from bins. Apples will be graded and scored for amount of bruises and amount of spurs/trash in the bin. Scoring is according to USDA standards for US Fancy grade or better.

Standards are explained and demonstrated to all workers prior to season's start. Inspectors review the results of the inspection immediately with the supervisor.

Supplemental General Information:

Instructions and overall supervision and direction of packers/pruners will be provided by a company supervisor. Unusual, complex or non-routine activities will be supervised. Workers will be expected to perform basic duties in a timely and proficient manner without close supervision.

Workers should be able to work on their feet in bent positions for long periods of time. Allergies to ragweed, goldenrod, insect spray, related chemicals, etc. may affect workers' ability to perform the job. Workers should be physically able to do the work required with or without reasonable accommodations.

All domestic and/or nonresident seasonal workers employed pursuant to this job order who satisfactorily completed Mt. Clifton's previous crop season (2008) may be compensated above the stated hourly wage rate. The decision to pay above the stated prevailing hourly rate will be made by the employer, at his sole discretion, and will be based on factors including the recipient's performance and tenure.

Workers with appropriate licenses may operate general purpose vehicles to transport workers, equipment and product from one orchard location or facility to another on farm. Workers hired pursuant to this labor certification must be able to comprehend and follow instructions of a company supervisor.

Work may include mechanized field work using power equipment. By way of example and not limitation power equipment may include tractors, planters, sprayers, cultivators and other farm and packing house equipment. Workers will be expected to be able to operate and perform maintenance of agricultural equipment with or without direction.

Work may also include general orchard work consisting of jobs directly related to production of fruit such as planting trees, preparing land for planting, cutting shoots and suckers, picking roots, rocks and other debris, mulching trees, inserting/removing tree spreaders, hoeing weeds around trees, cleaning and clearing fence rows and farm buildings.

Workers are exposed to wet weather early in the morning through the heat of the day, working in fields. Temperatures may range from 10 to 100 F. Workers may be required to work during occasional showers not severe enough to stop field operations.

Employer assures that workers will be provided transportation from living quarters to work site every day (for workers who must be provided housing.)

Employer will accept any worker or workers who are capable of performing the work. Employer is willing to train workers for a period not to exceed 3 days (24 working hours). Persons seeking employment under the provisions of this job order should be available for the entire period requested by the employer. All terms and conditions included in the job order will apply equally to all workers, domestic and foreign, specifically employed according to the provisions of this job order.

Employer retains the right to discharge an obviously unqualified worker, malingerer or recalcitrant worker who is physically able but does not demonstrate the willingness to perform the work necessary for the employer to grow a premium quality product. (See also Attachment 2, General Conditions).

All terms and conditions included in the job order will apply equally to all workers, domestic and foreign, employed under this job order.

Item 11. Wage Rates/Pay Information

Workers are paid weekly. All general production work provided in this job order will be paid by the hour at the current AEWB of \$8.15/hour for work performed in Shenandoah County, Virginia, or \$8.78/hour for work performed in Rockingham County, Virginia, or at the prevailing wage rate as determined by the Virginia Employment Commission, or the legal federal or state minimum wage rate, whichever is highest. In the event the DOL promulgates a new AEWB during the recruitment or contract period which is lower than the AEWB in effect at time of application, this lower AEWB becomes the guarantee at the discretion of the employer unless there is a prevailing hourly rate higher than the new AEWB.

All work is compensated at the above hourly rate except for the following work activities which are compensated on a piece rate productivity incentive basis according to the following schedule:

~~Apple Harvest, Fresh Market \$ .58 Per Bushel~~  
~~Apple Harvest, Processing \$ .58 Per Bushel~~  
~~Apple Tree, Pruning \$1.50 Per Tree~~

No piece rate work will be performed at less than the above-stated piece rates. In instances when working conditions are unusually adverse in the employer's judgment, the employer may, at his discretion, temporarily raise the piece rates above the rates listed above in order to assure workers fair earnings. All work performed on a piece-rate compensation schedule are guaranteed that they will receive no less than the AEWB rate specified above.

The employer guarantees to offer the workers employment for at least  $\frac{3}{4}$  of the work hours of the total period during which the work order and all extensions thereof are in effect, beginning with the first work day after the arrival of the workers at the place of employment and ending on the termination date specified in the work order or its extension, if any. If the employer offers the worker during such period less employment than required under this provision, the worker will be paid the amount he/she would have earned had he/she, in fact, worked for the guaranteed number of hours. Employee will perform other duties related to this/these crop activities and other tasks required in operating a farm.

If, before the expiration date specified in the work order, the service of the workers is no longer required for reasons beyond the control of the employer due to fire, or other Acts of God, such as frost, flood, drought, hail, etc. which makes the fulfillment of the contract impossible, and the RA so certifies, the employer may terminate the work order and return the worker to the place from which the worker, without intervening employment, came to work for the employer at the expense of the employer.

Employer will provide without charge all tools, supplies and equipment necessary to perform duties assigned.

Unless the employer has amended the date of need no less than ten (10) working days prior to the date of need through notice to the order holding office, the employer will guarantee one week's wages to all workers subject to this order beginning with the anticipated start date. Employers may require workers to perform alternative work. "Alternative work" includes all work described in this job order or otherwise approved by the SWA.

Any U.S. worker who fails to notify the nearest SWA no sooner than nine (9) working days and no later than five (5) working days prior to the anticipated date of need of his/her intentions to fill the job for which he/she was referred and recruited will be disqualified from the first week's wage guarantee described above.

If the worker voluntarily abandons employment before the end of the job order period or is terminated for job related reasons or misconduct, the employer will not be responsible for providing or paying return transportation and subsistence expenses of the worker.

Employer agrees to maintain adequate and accurate payroll records. The employer will furnish to each worker on payday an itemized accounting of earnings and of all legal and authorized deductions. Social Security, FICA, and FUTA deductions will be made for individual U.S. workers as required by law.

Employer will provide workers' compensation at no cost to workers covering injury and disease arising out of and in the course of worker's employment. Proof of worker's compensation insurance will be provided to Regional Administrator prior to certification date.

#### Item 12. Transportation

For workers who complete 50 percent of the work period, the employer will reimburse the worker for costs incurred by the worker for transportation and reasonable subsistence from the U.S. Consulate/Port of Entry from which the worker came to work for the employer to the place of employment. Subsistence will be in accordance with current rates published in the *Federal Register* (for workers with and without receipts.) The amount of the reimbursement for transportation shall be the worker's actual cost, but no more than the most economical and reasonable similar common carrier transportation charges for the distance involved.

If the worker completes the period of employment, the employer will provide or pay for the worker's transportation and reasonable subsistence from the place of employment to the place from which the worker came to work for the employer, except when the worker has accepted subsequent employment with another employer who agrees to accept the return transportation costs, in which case this employer only pays for the transportation to the next job.

For the purposes of the above requirements the "period of employment" shall be the period from the first workday the worker is at the employer's farm and is ready, willing, able and eligible to work until the anticipated ending day of employment in Item 6.

Reimbursement of inbound and return transportation costs applies only to persons recruited from outside normal commuting distance (to and from their permanent place of residence each day; see page one). Return transportation will not be provided to workers who voluntarily abandon employment before the end of employment period or who are terminated for cause.

The employer will provide transportation at no cost to the worker from the employer provided housing to the worksite and return on a daily basis. Such transportation shall be in accordance with applicable laws and regulations. The use of this transportation is voluntary; no worker will be required as a condition of employment to utilize the transportation and subsistence if applicable.

If the services of the worker are no longer required for reasons beyond the control of the employer due to fire or other acts of God such as frosts, flood, drought, hail or the like which makes fulfillment of the work period impossible and Regional Administrator so certifies, the employer will provide reimbursement for transportation and daily subsistence from the place of recruitment for covered employees.

General Conditions

To be hired for employment under this job order, the worker must be able, willing and qualified and be available at time and place needed to perform the work described in this job order.

The worker understands that if he quits or is terminated for cause prior to the end of the period of employment he will not receive certain transportation reimbursement discussed under Item 12 and may not be eligible for rehire in future years.

Employer may terminate the worker for lawful job-related reasons and so notify the Job Service local office if the worker (a) abandons the employment; three consecutive workdays of unexcused absence shall be an abandonment of employment; employee must notify the employer and secure permission for necessary absences; (b) malingers or otherwise refuses without justified cause to perform as directed the work for which the worker was recruited and hired; (c) commits serious act(s) of misconduct or serious or repeated violation(s) of the employer's work rules; the employer may make and post work rules which shall apply to this employment; the worker shall abide by such rules (a copy of general rules is attached); (d) fails after completing the allowable training period to perform in a workmanlike manner to enable the employer to produce and sell a premium quality product; (e) provides other lawful job-related reasons for termination of employment.

This work agreement shall also be terminated by reason of fire, hurricane, frost, flood, drought, hail, other acts of God or other calamity or reason beyond the employer's control to make fulfillment of this work agreement impossible. "Reason beyond employer's control" includes termination of worker, if he is not a US worker because a US worker makes himself available for the job under DOL 30-Day rule.

A copy of the Agricultural Work Agreement and Work Rules will be provided to the worker no later than the date work commences.

Mt. Clifton Fruit Company, LLC

We expect the total number of workers the employer will use in the occupation of this/these crop activities to be 157, of which 155 are expected to be H-2A workers for which certification is requested and the balance will be US workers. These numbers are estimates only as total workforce needs are dependent upon weather, crop conditions and worker availability.
