**FIELD OPERATIONS BULLETIN NO. 1-03**

TO: Regional Directors and Field Office Managers

FROM: James W. Jacobs   
Assistant Commissioner for Field Operations

SUBJECT: Migrant and Seasonal Farmworker Estimates/Outreach Counties for  
Program Year 2003

Instructions for conducting the subject estimate for PY03 are provided below:

Estimates for each county will be developed only by the field offices listed below. Each field office will survey the counties listed and assigned to it for MSFW Outreach. All estimates from all sources must be consolidated by FPS or FO staff and reported as a consensus for each individual county. Submit only one report for each county (format enclosed). List all the agencies/ individuals consulted at the bottom of each county report. Consultations with Extension Agents and with WIA 167 (Telamon, Inc.) are mandatory. Input from agricultural associations, growers, and any other groups with an interest in farmworkers is strongly recommended. Personal meetings with Extension Agents and Telamon staff are mandatory where feasible, and optional for other sources of this information.

Again for this season, review the crop locations listed in "Virginia Agricultural Statistics Service-County Data 2000-2001", at: <http://www.nass.usda.gov/va/crpxtyest.htm> for farmwork and farmworkers as defined at 20 CFR 651.10. **Strict adherence to the definition of MSFWs is essential to the validity of this estimate which includes all farmworkers, not just those currently working.** Field office managers must insure that each county covered by their field office is surveyed. Where there is a staff vacancy, consult with the regional director for support. Reports are due to Jack Turner in the Central Office no later than February 21, 2003.
